Wholesale Seed Growers

LOS ANGELES, CAL. - - - U. S. A.

TERMS—All prices quoted on basis of f. o. b. California, and forwarded at best possible rates.

Flower and Vegetable Seeds 2 per cent on receipt of goods; 60 days net; Beans sight draft against B-L. All overdue accounts subject to sight draft without further notice.

Seamless bags and all containers charged at cost.

NON-WARRANTY—We exercise the greatest care in growing and harvesting our Seeds, roguing our crops under personal supervision, to the best of our ability, true to name, and send out nothing but what we believe will give satisfaction. It must, however, be expressly understood that we warrant neither description, growth nor productiveness of any Seeds we deliver, nor will we hold ourselves responsible for the crop raised from any of the Seeds we grow.

If our goods are not accepted on these terms they must be returned at once.

Our Seeds have now been selling on their merits for the past twenty years, and by observing the steadily increasing demand we believe they have given general satisfaction, but should any variety not have been as represented, we hope our patrons will acquaint us therewith.

Very respectfully,

JOHN BODGER & SONS CO.

SWEET PEAS.

The small crop last year, with two poor seasons prior, and the extra cost of producing this crop, has made it imperative that we ask our patrons for a better price, especially on the Grandiflora varieties. These conditions are not local, but throughout the State; therefore, we trust you will find our prices as low as any reliable grower on the Coast.

ASTERS.

We have harvested a fair crop of Asters during the past season, including some fine selected stock of the various varieties. Those marked with an asterisk (*) we can especially recommend for florist or other critical trade, as the stock seed has been selected from the most perfect flowers, thereby giving us every assurance of producing first class flowers of the different varieties.

Bodger's Giant Branching Comet.

A Giant Comet type of Branching Asters developed by us. Bears many flowers, all large and full of petals, and is rapidly becoming popular among florists.
